

about:config

- **ui.trackpoint_hack.enabled (default:-1) (-1:autodetect;0:off;1:on)**

set : **ui.trackpoint_hack.enabled** Väärtus : **1**

Close and restart Firefox after changing the ui.trackpoint_hack.enabled pref.

Valitud lahendus

Try to modify the ui.trackpoint_hack.enabled pref on the about:config page from the default value -1 to 0 or 1 to see if that makes the touch pad work.
